C-AIRE®
COMPRESSORS

COMPRESSOR OIL

BEST TIER | ESTER OIL

- Silver bottle
- Put in new units from the factory (except portables)
- Ester based
- Lower wear
- Higher flash point
- No hard varnish deposits
- Lower pour point
- Better to use in cold environments with cold starts
- ISO 100/30 weight air compressor oil

BETTER TIER | SYNTHETIC OIL

- Black bottle
- Synthetic based
- Marginally worse than ester oil
- Leaves some deposits
- Some rotaries use this or Keltec oil
- ISO 100/30 weight air compressor oil

GOOD TIER | MINERAL OIL

- White bottle
- Mineral based
- Portable units will have this oil
- Higher wear
- Lower flash point
- Hard varnish deposits
- Higher pour point
- ISO 100/30 weight air compressor oil
